

Password Pop

Directions: Cut out the letter squares, fold them and place the squares of each word into a balloon (1 word per balloon). Blow up the balloons then tie them together. Cut another copy of the letter squares and repeat the process. There should be at least 2 balloon bundles for 2 teams (cut another copy of squares for additional teams). At the “go” signal, teams will pop 1 balloon at a time to unscramble the letters and form the word (5 pts each). When all the words from the balloons have been unscrambled, teams must then take the password letters (orange) from each word and figure out the password (10 pts). Once the password has been unscrambled teams must use clues & gestures to get the birthday kid to say the password (20 pts). *Notice that the password letters are all orange and spell the word “confetti.”* The first team to gets the birthday kid to say the password OR the team with the most points wins *Password Pop!* See website for full instructions.

Do not want to use these words for your game? No Problem. Simply fill in the empty squares from this page and the following page with whatever words you wish. Just be sure to make the password letters distinctive from the other words with the use of color. Have fun!
